## THANK YOU FOR PURCHASING A WATCH FROM RACINGTIME SWEDEN

You have acquired a watch from RACINGTIME which we hope shall give you great pleasure. This watch is an original creation made and tested to meet the standards of the RACINGTIME quality. We guarantee that this watch has been manufactured with greatest care.

## WATER RESISTANCE

If your watch is water resistant, it will clearly state 'Water Resistant' or have a static water pressure indication (e.g. 3/5/10at) on the dial and/or case back. If it is NOT marked as water resistant, it should NOT be allowed to come into contact with water or be worn in a condition that could expose it to moisture (e.g. washing, heavy rain etc.) Please note that certain chemicals in water such as shower/bath products, chlorine and sea salt may damage the watch seals. To maintain its water resistance, we recommend that your watch is serviced and re-sealed at least every 2 months by any recognized watch retailer or jeweler.

Leather watch straps are NOT water resistant unless stated 'water resistant leather'. Watch straps can be replaced with most suitable straps of the same size by any recognized watch retailer or jeweler.

## Water Resistant or Resistant To 5atm

Suitable for normal everyday use and will resist exposure to splashes and rain; it is NOT designed to be used while bathing or swimming. Water Resistant TO 10atm as 5atm plus poolside diving and snorkeling, but not high board diving.

## ADJUST YOUR WATCH

1. Pull the crown out until you hear a click.
2. Turn the crown to set the time as desired.
3. Push in the crown completely and you are done!

**IMPORTANT:** Crown/winder/button must NOT be operated while in contact with water.
